The Gardeners Delight— Yews

LIBRARY
RECEIVED

★ JAN 31 1951 ★

U. S. Department of Agriculture

This offer of fine Yews is good only as long as our limited supply lasts. We therefore urge you to order now. We will ship in time for planting. We never had a finer collection of Yews to offer, some old standbys and some real new ones.

Stoveken Yew.

Of the many, recently developed newer Yews the Stoveken Yew promises to be one of the outstanding. The original tree is of a broad pyramidal form. The foliage is waxy, dark green. The rate of growth is rather fast. Here is an opportunity to obtain a new valuable Yew.

We offer twice transplanted heavy trees - 15 inches high.

Each: \$ 1.00

Hicks Yew

Here is another one of the newer Yews. It has the same columnar form as the Irish Juniper. Foliage is dark green and at times this Yew is bearing great amounts of red berries. Fine for hedges.

Twice transplanted - 15 inches

Heavy plants

Each: \$ 1.00

Japanese Spreading Yew.

The Spreading Yew is a valuable plant for the foundation planting. It has a pleasing informality that lends itself well for group planting. Will withstand smoke and other adverse conditions. Very hardy

Price:

15 inches

Heavy plants

Twice transplanted

Each: \$1.00

Brown's Yew.

The Brown's Yew is one of the newer member in the Yew family. It resembles the Spreading Yew, however it is of more compact form of growth. The heavy waxy foliage is dark green. Like all the Yews it tolerates shade and city conditions.

Twice transplanted trees

Heavy

15 inches

Each : \$ 1.00

Japanese Dwarf Yew.

The Japanese Dwarf Yew is one of the most desirable evergreen for the small place. Grows rather slow, but very compact. Stands shade very well. Irregular and very picturesque in outline. Very hardy.

Twice transplanted, heavy trees - 10 inches

Each: \$ 1.00

Japanese Upright Yew.

The fine qualities of the Upright Yew, as well as of the other Yews become more and more known. Here are a few: Dark green color the year around, grows in shady locations, will grow under city conditions. On the northside of the house or on any other shady spot, plant a Yew.

Twice transplanted trees 12 inches high.

2 for \$ 1.75- Postpaid.

Hatfield Yew.

This is another of the newer Yews. It was developed by Mr. Hatfield, former superintendent of the Hunnewell estate at Wellesley, Mass. The Hatfield Yew is one of the compactest grower. Its form of growth is somewhat like the Hicks Yew, but a little more open on top. The foliage is very heavy and luxuriant, dark green in color.

Twice transplanted- fieldgrown Heavy plants 15 inches

Each : \$ 1.00

Hallorean Yew.

This is the latest addition to the family of Hybrid Yews. It has all the characteristics of the Japanese Yew: dark green foliage, tolerance of shade, freedom from insects and pests and is very hardy. The form of growth of the Hallorean Yew is broadly pyramidal. It is one of the faster growing Yews. Its uses in the landscape are the same as of the upright Yew. We recommend this new Yew very highly. Do not miss this offer.

Heavy, fieldgrown trees-15 inches
Each: \$ 1.00
